

with candle

with glass globe

**Outdoor Standing Lights**

ca 1910

brass

American

These outdoor lights were designed with Art Nouveau aesthetics in mind. Organic forms and undulating scrolls begin at the footed base and give way to more regular forms at the top. Perhaps this subtle and elegant change was an unconscious reference to the Art Nouveau movement giving way to more Modern designs.

39"h x 12 1/2"w

**Item# UA0455 SV**

**\$7,500 for pair**
