

V151

V151:
Palm
7.5 pcs per SF
Item #: 766
Color: Antigua
Finish:
Fluid Crackle

Fluid glaze resembles traditional Victorian glazes. As such, the tiles crackle at different intervals - some larger and some smaller. Fluid glaze flows freely during firing, producing a beautiful "aged" look. Expect color variation from tile to tile. Fluid glazed tile must be sealed. For best results on architectural caps, use light colored fluid glazes.

Please request sample when ordering due to dye lots and variations.
