

Columbia
UA0321 HL

Warning:
Risk of fire and electrical shock if improperly installed. Must be installed by a licensed electrician according to the instructions provided.

Caution:
Turn off power a main electrical box before installation.

Instructions for Assembly

1. Make all the wiring connections from backplate to the junction box. Screw the backplate to the wall.
2. After you secure the backplate, place the light fixture over the candles, aligning the screws at the bottom of fixture with the holes at the top of the arms. Once it is set on top of the arms, secure the screws with the end caps.
3. Locate the glass panels (each fixture is numbered and each panel of glass is numbered in order to locate the glass in the correct opening). Adjust each glass panel and secure gently with the interior tabs. Do not over tighten.
4. Secure all glass with a thin bead of silicone.

**Note:
Silicone and bolts
supplied with the
fixture
