

Poured Stone Urn

ca 1960

stone

American

These intricately detailed urns were cast from poured stone with lead handles, and feature a classically inspired Grecian motif around the urn's face. The figures dance, arms interlocked, just above the beautiful, woven details of the carved pedestal. Each of the four available urns weigh approximately 1000lbs and boast a pair of leaden handles on either side.

4'-8" h, Top 37" dia., Base 11" sq.
