

GARDEN FOUNTAIN

This cast-iron fountain is american-made at the turn of the twentieth century. Water spouts from the nostrils of all three dolphins, the finial at the very top of the fountain's urn, and a ring just below the catch-basin. This unique piece sits on a 34 1/2" triangular base, and stands 87" tall from base to the top of the finial crowning the urn. The fountain can be seen installed in the decoratively tiled, cast stone basin (shown above), on the grounds of our Bridgehampton location. Price below reflects the cast-iron fountain only. Please direct any inquiries regarding the basin to our Bridgehampton showroom.

SOLD

REF# UA39 SV \$35,000 (fountain only)
