

**ANTIQUe IRON WASHBASIN**

---

This antique Iron washbasin stands 37" high with a 27 1/4" diameter. The basin bears the name, "V Clad & Sons Inc., Philadelphia" on a small placard riveted to the exterior. The small, family-owned company started in Philadelphia at the turn of the 20th century. The company originally sold professional cooking equipment, but in the late 1920's made a deliberate shift to supplying the textile industry with cleaning and dyeing equipment in order to accommodate the shift in the neighborhood market demand.
