

NIKE DRAFTING TABLE

This restored drafting table was made by Nike Hydraulics in Eskilstuna, Sweden, circa 1940. The base, drawing arm and light are made of nickel plated steel. The 24" diameter base has a hydraulic mechanism. It pivots, angles and moves up and down to a minimum height of 3'-0" and a maximum height of 4'-2". Included are a drafting arm, adjustable light, and an acrylic top measuring 40" x 60".

REF# UA70 SV \$19,500

*Table shown in photo has been sold, several others are available, please inquire.
