

Girl with Shell Fountain

circa 1960

lead

American

This elegant floor fountain is made of lead. It features a young girl standing on a pedestal holding a shell with a bird. Water spouts from both ends of the shell into the catch-basin below. The catch-basin has three large rosettes evenly spaced across the front of the curved bend.

This fountain adds classic beauty to any setting, stands 54" tall with a basin measuring 50"w x 12"d x 27" projection. It is in great original working condition.

Overall height: 54"h

Overall basin: 50"w x 12"d x 27" projection
